

# EverLift<sup>™</sup>

Submucosal Lifting Agent

**THE LIFT** YOU'VE BEEN WAITING FOR

# EverLift™

## Submucosal Lifting Agent

### INDICATION FOR USE

EverLift Submucosal Lifting Agent is indicated for use in gastrointestinal endoscopic procedures for submucosal lift of polyps, adenomas, early-stage cancers, or other gastrointestinal lesions prior to excision with a snare or other appropriate endoscopic device.

### SUPERIOR CUSHION

#### CELLULOSE BASED & HYPERTONIC

EverLift is cellulose based enabling the solution to stay in place longer, as it is not absorbed as quickly as other lifting agents:

**EverLift provides  
margin delineation  
with darker color**

**Other Lifting  
Agents**

**EverLift**

- EverLift is specially formulated with water retaining properties to prevent rapid absorption by the body
- EverLift is hypertonic, and has a slower rate of absorption due to osmotic resistance

**EverLift holds a 2mm lift  
for 60 minutes**

# THE LIFT

you've been waiting for

## CONVENIENTLY PACKAGED AS EASY TO USE AS SPOT EX

### PRE-MIXED WITH METHYLENE BLUE

Methylene blue is used to highlight the lesion perimeter and aids in:

- Increased occurrence of en bloc resection rates
- Reduced occurrence of residual lesions and incomplete resections
- Improved identification of muscle injury to help avoid missed perforations

### REQUIRES NO PRE-PREP

- EverLift's convenient zero-prep, pre-filled syringe attaches directly to any endoscopic injection needle's luer-lock connection (23G recommended)
- No refrigeration required

## FOR EVERYDAY USE

- EverLift is the only pre-filled submucosal lifting agent on the market available in two presentations, 5 mL and 10 mL
- Use EverLift for all polyps requiring a lift – including smaller polyps (<20mm)
- Use only what you need without throwing out what you've paid for

**First Lifting  
Agent with 5 mL  
& 10 mL  
options**

For 20 years, GI Supply has been the manufacturer of the leading endoscopic tattoo, Spot Ex, which has been used by physicians and surgeons in more than 5 million cases worldwide.

GI Supply continues to broaden its submucosal injection offering with innovative and affordable devices designed to maximise procedural efficiency and patient safety.

**SUPERIOR CUSHION**

**CONVENIENTLY PACKAGED**

**FOR EVERYDAY USE**
