

**MICRO-TECH**  
QUALITY ACCESSORIES FOR  
THERAPEUTIC ENDOSCOPY

## WELCOME TO MICRO-TECH

### YOUR PARTNER FOR THERAPEUTIC ENDOSCOPY ACCESSORIES

You can expect more from MICRO-TECH as your partner for high-quality accessories for therapeutic endoscopy treatment. More quality in therapeutic endoscopy, more safety for your patients and more convenience for you and your team.

As one of the world's leading specialists for therapeutic endoscopic accessories, MICRO-TECH only develops, produces and sells solutions that meet the highest standards.

MICRO-TECH was founded in 2000 as a provider of high-quality stents and endoscopic accessories in China. Right from the start, the company focused on offering first-class quality and individual advising. Today, the company is an international leading manufacturer and provider, and supplies physicians and nursing personnel all over the world with products that make their work easier, safer, and more patient-friendly.

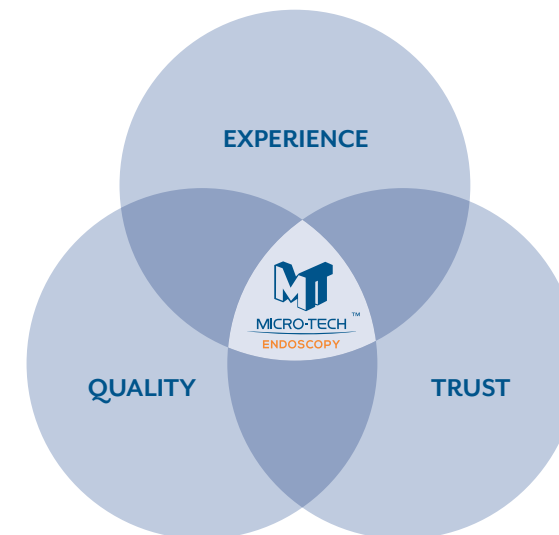

## TRUST IN

### ... 20 YEARS OF EXPERTISE

We have been working with leading experts for around 20 years. This experience helps us meet the growing demands of the healthcare sector with new products and services.

### ... OUTSTANDING QUALITY

As a manufacturer of modern endoscopy solutions, we understand our responsibility to help save human lives. Because of this, we always focus on delivering the best possible quality, in every product and in everything we do.

### ...OUTSTANDING COLLABORATION

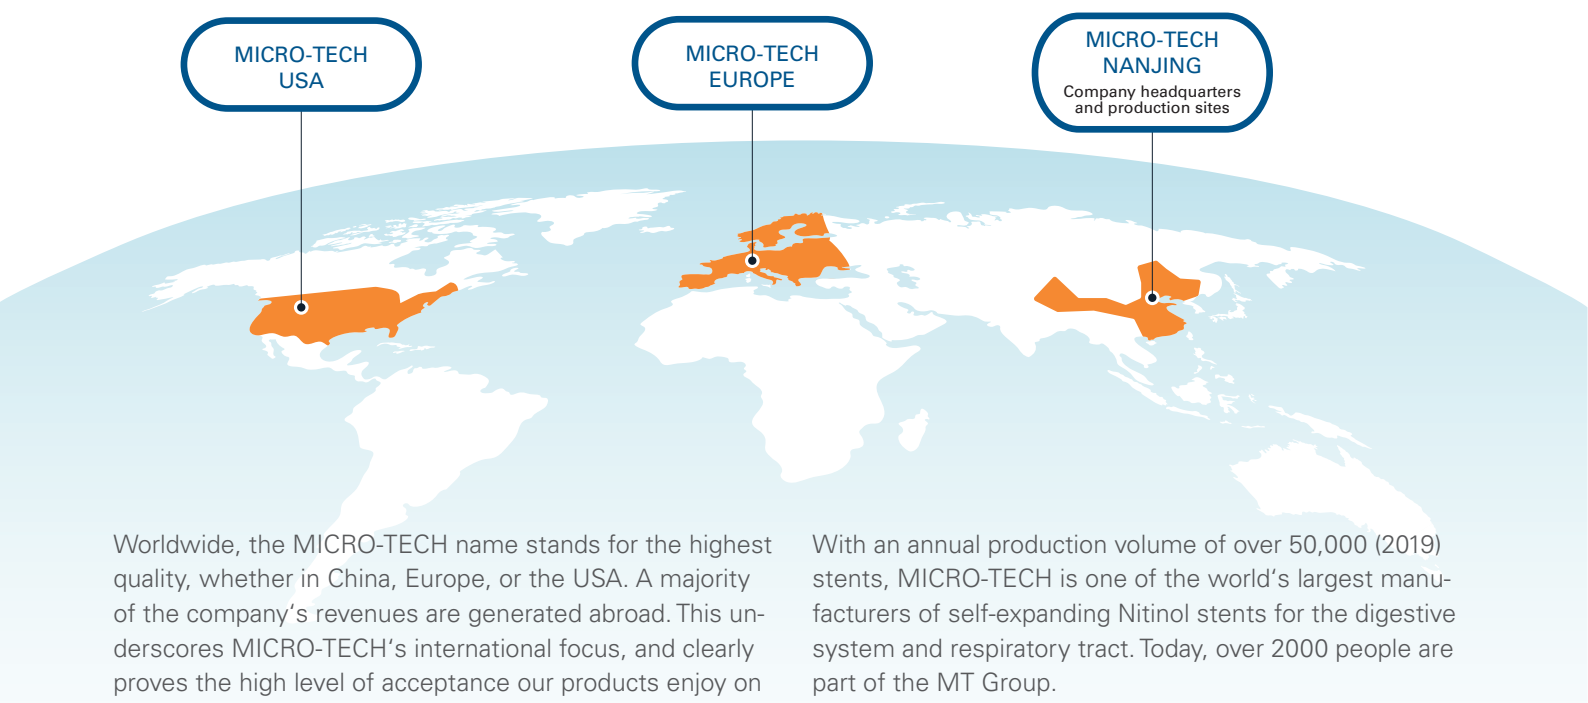

We support physicians, nurses and care providers in their everyday work to help improve the lives of their patients. We always act in a conscious, transparent and open manner towards our partners.

**YOUR TRUSTED PARTNER IN ENDOSCOPY**

# THE MT GROUP

## SOLUTIONS THAT SET GLOBAL STANDARDS

### CLEANLINESS IS OUR TOP PRIORITY

The majority of our products are developed and produced at MICRO-TECH's headquarters in Nanjing, under the strictest standards. The building, which houses qualified employees, technicians, and engineers, is around 14,000 m<sup>2</sup> in size. The modern production facilities also include new clean rooms, guaranteeing absolute safety and clean manufacturing: two class 100,000 clean rooms of 6,000 m<sup>2</sup> and 3,500 m<sup>2</sup> in size conform to GPM requirements (Good Manufacturing Practice Regulations), and the company also has another clean room of 600 m<sup>2</sup> in size.

### IN THE HEART OF EUROPE WITH MICRO-TECH EUROPE

MICRO-TECH was the first Chinese manufacturer of therapeutic instruments to found a branch in Europe: MICRO-TECH Europe GmbH in Germany. Since 2007, it has been managing supply to all hospitals and practices in Europe from the key international transportation hub of Düsseldorf. The company also has a branch in The Netherlands as of January 2020.

Our ever-growing team of experts and continuously expanding sales network ensure you receive the best possible service, personal advising on site, and deliveries of high-quality products within 24-48 hours. Because of this, MICRO-TECH has succeeded in growing into one of Europe's leading providers of therapeutic endoscopy accessories in just a few years.

### QUALITY AS AN OBLIGATION

As a medical device manufacturer, we are well-aware of our responsibilities towards you and your patients. Because of this, we set the highest possible demands for quality and processing for each and every one of our products.

We see the development of our solutions as a dynamic process. Because of this, we control our products in order to optimize them. We are always looking for new ways and possibilities to make our products and services even better. This is the only way we, and you, can be certain your patient treatments achieve the best possible results.

In addition to the quality of our materials, however, the quality of our employees determines the reliability of every product we make. Our team consists exclusively of competent specialists with many years of experience, who are able to develop unique precision solutions that you and your patients can rely on fully.

We are of course certified according to ISO 13485. And we are now following the EC Directive 93/42/EEC for medical products whilst we have established quality system that adhere the new regulation (EU) 2017/745 and plan to make a full transition from the EC Directive 93/42/EEC to the regulation (EU) 2017/745 before 2024.

# TAILOR-MADE ADVICE AND SERVICE

### PERSONAL AND TRUSTWORTHY

We don't see you as a customer; instead, we treat our customers as partners and value close collaboration. This allows us to not only continuously adapt our products to the requirements of modern medicine, but also to work with you to find the individual solutions that are best for you and your patients. Personalized, trusting consulting and outstanding competence are key to our company.

### STRONG PARTNER

We work with leading specialists in an international network, in order to supply you with endoscopy solutions even more effectively. In addition, we work in close contact with clinics and purchasing associations to address

customer concerns even more specifically. We also continuously expand this international network, and are always looking for new specialists. If you want to grow alongside MICRO-TECH, then contact us.

### HERE FOR YOU, IN THE BNG SHOP

We have been a member of the Berufsverband für niedergelassene Gastroenterologen Deutschland e.V. since July 1st, 2020. Members of the association can purchase a selected portfolio of MICRO-TECH products at special conditions. In addition, we are also listed by other purchasing associations, including the largest such associations in Germany.

Our website provides further information on our products at [www.micro-tech-europe.com/products](http://www.micro-tech-europe.com/products).

## ONE-OFF PRODUCT PRODUCTION BY MICRO-TECH AS UNIQUE AS YOUR PATIENT

Every patient is different – including in terms of their anatomy. Because of this, standard stent shapes or sizes may not always be able to handle a stenosis. Such cases demand solutions specifically tailored to the patient's needs. MICRO-TECH has taken on the challenge, and develops specialized sizes and custom stents. Each of these stents is truly one-of-a-kind. It is manufactured to fit the patient's specific anatomy, and perfectly aligns with their physical dimensions and requirements.

Do you have questions, or do you want to learn more about custom stents from MICRO-TECH? We will be happy to provide you with any information you may need.

Call us at (+49 (0)211 732 7626-0) or write an e-mail to [contact@micro-tech-europe.com](mailto:contact@micro-tech-europe.com).
