

# THE HYGIENE SOLUTION THAT FITS

PENTAX Medical is using innovative products, optimizing processes, and integrating feedback from the market to directly tackle patient safety and infection prevention.

By offering solutions like the DEC™ Duodenoscope and the PlasmaTYPHOON endoscope drying and storage unit, we are reinforcing our strong commitment to these vital topics. But real change comes from understanding the landscape - and reshaping it. Which is why improved hygiene and safety are the pillars that support all our research and development.

We work closely with experts for market insight to ensure that all products are directly based on this need. Then we innovate for even better clinical outcomes - because a commitment is nothing without action.
