

GREAT HANDLING, EASY CLEANING

I-CAP™ Duodenoscope ED34-i10cT

Providing outstanding imaging and handling during ERCP as well as improved access for cleaning and reprocessing.

Providing outstanding imaging and handling during endoscopy as well as improved access for cleaning and reprocessing.

A **reliable therapeutic performance** is supported by a combination of a **lightweight control body** designed to **minimize hand fatigue** during prolonged procedures and an ergonomic elevator designed for **precise device control**.

IMPROVE
CLINICAL
OUTCOMES

ENHANCE
EXPERIENCE AND
SATISFACTION

MAXIMISE
VALUE

Expect **outstanding visualisation** supported by a brighter HD+ image and finely differentiated colours and contrasts for proper positioning **to facilitate easier cannulation**.

An **increased hygiene standard** is achieved through a **detachable and reusable distal end cap** which improves post-procedure access for cleaning and reprocessing.
